Release 0.3.0

Django-CRM

Sep 12, 2019

Contents

1	Introduction:	1
2	Tech stack used:	3
3	Modules available in Django-CRM:	5
3.1	User functionalites:	5
3.2	Modules in crm:	15
4	Rules to follow:-	25
5	Setup On Local System	27
5.1	On Windows	27
5.2	On Ubuntu	27
6	Installation - Requirements	29
6.1	Ubuntu 64bit - 16.04	29

CHAPTER 1

Introduction:

Django CRM is opensource CRM developed on django framework. It has all the basic features of CRM to start with. We welcome code contributions and feature requests via github.

Source Code is available in Micropyramid Repository() [Link](#).

CHAPTER 2

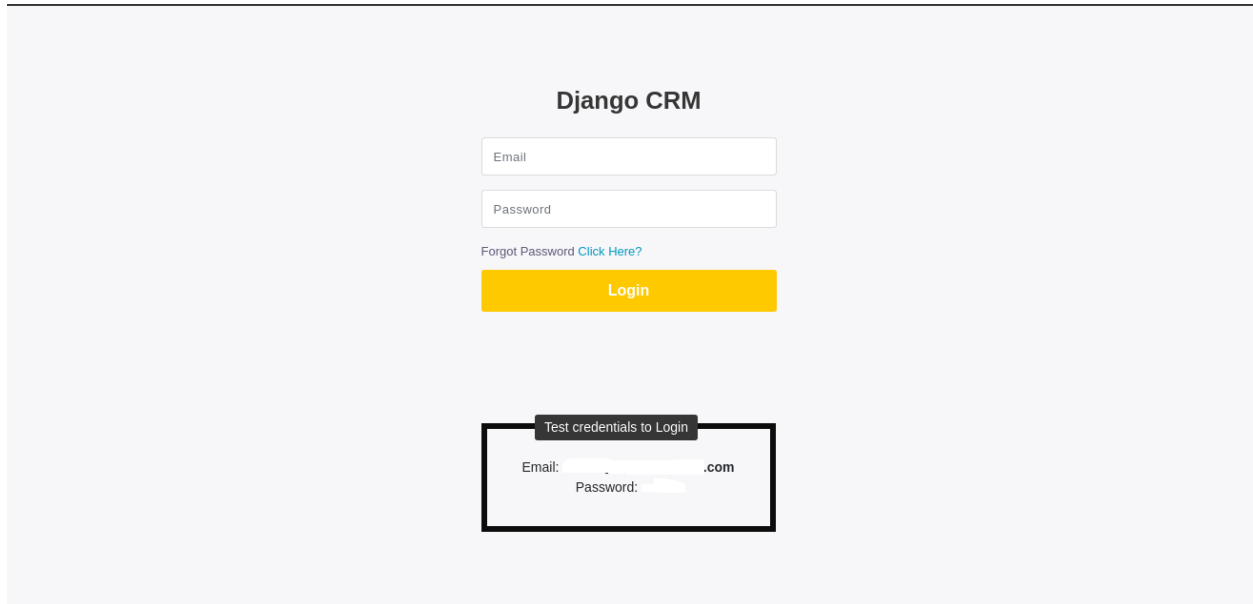

Tech stack used:

- Python ≥ 3.4
- Django ≥ 2.0
- Redis
- django-simple-pagination

Modules available in Django-CRM:

3.1 User functionalites:

3.1.1 Login

The screenshot displays the login interface for Django CRM. At the top, the title "Django CRM" is centered. Below it are two input fields: "Email" and "Password". A link "Forgot Password Click Here?" is positioned below the password field. A prominent yellow "Login" button is centered below the links. At the bottom, a black-bordered box contains the text "Test credentials to Login" above two input fields labeled "Email:" and "Password:". The email field has ".com" as a placeholder, and the password field has a small icon.

Fig Login Page

3.1.2 Forget Password

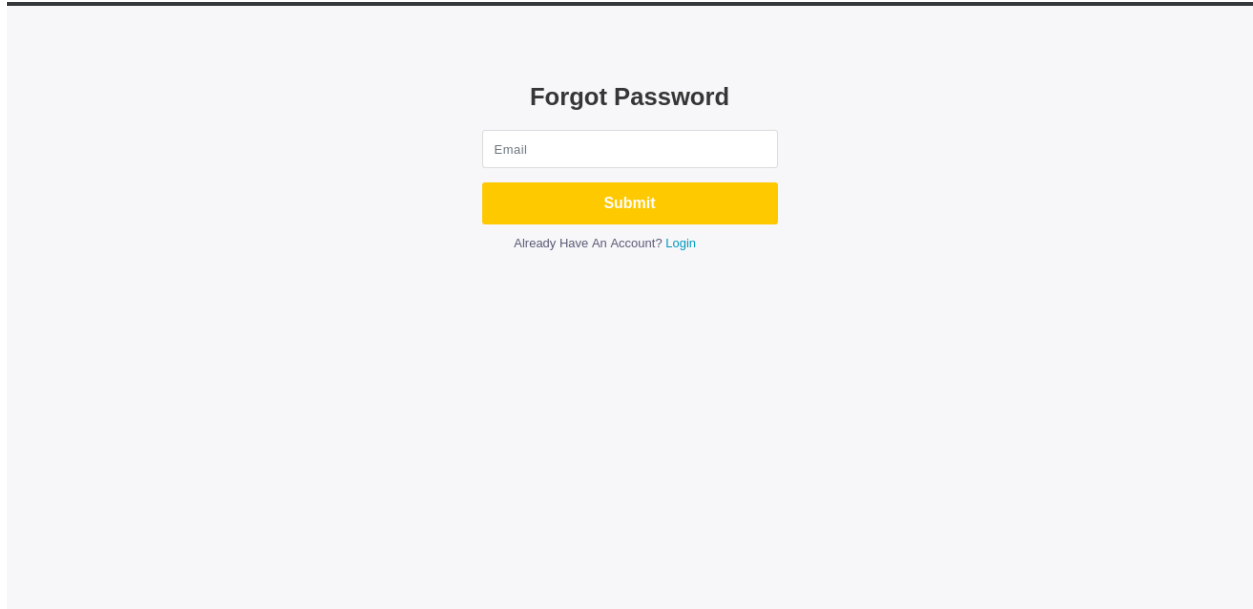

Fig Forget Password Page View

Enter the registered email id and click submit, then you will be sent a email to the registered email address, and redirect to the acknowledge page as below figure

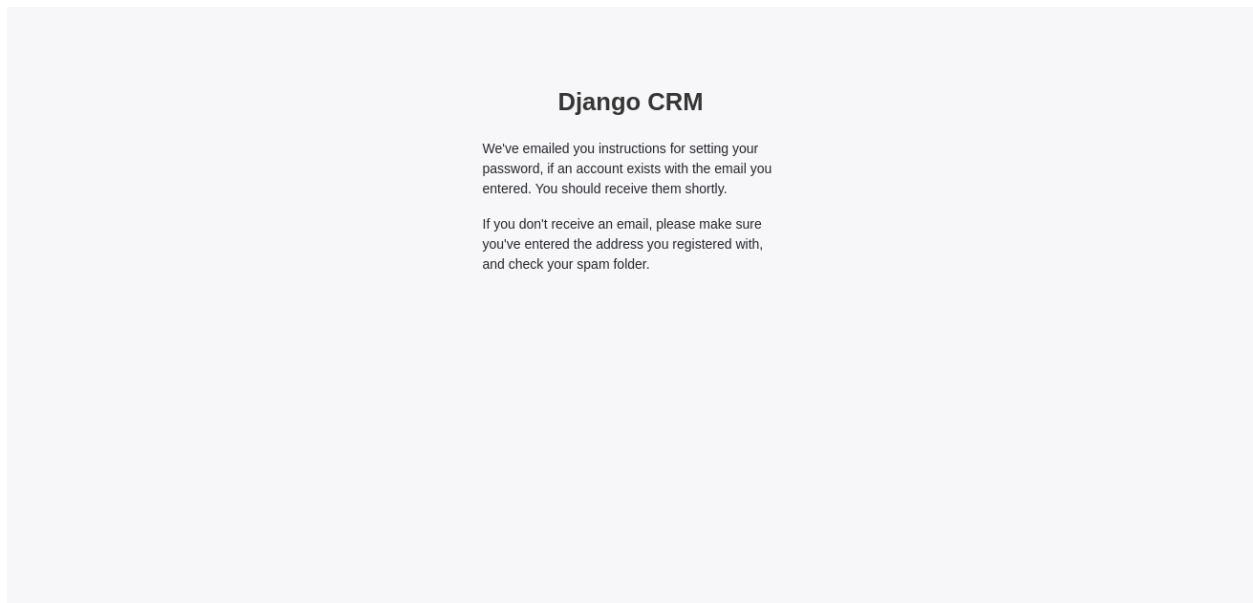

Fig Email Sent acknowledgement view

When you check the mail you will receive a email similar to the below figure.

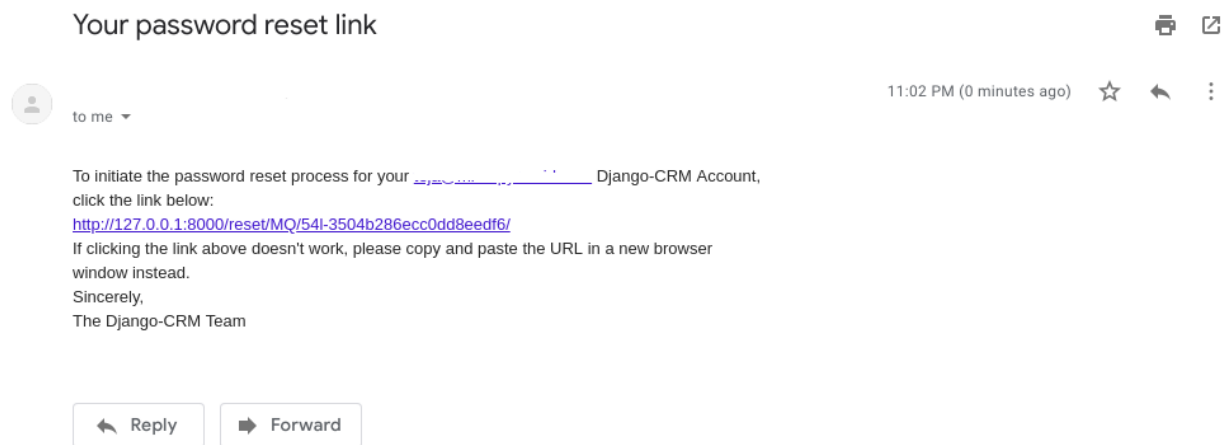

Fig Email recieved

When you click on the link in the mail, you will get a page as below

The screenshot shows a web page titled "Django CRM" at the top. The main heading is "Change password". Below the heading, there is a form with the following elements:

- A label "New password:" followed by a text input field.
- A list of password requirements:
 - Your password can't be too similar to your other personal information.
 - Your password must contain at least 8 characters.
 - Your password can't be a commonly used password.
 - Your password can't be entirely numeric.
- A label "New password confirmation:" followed by a text input field.
- A yellow button labeled "Change password" at the bottom.

Fig Password Reset view

After you successful change the password you will get below page

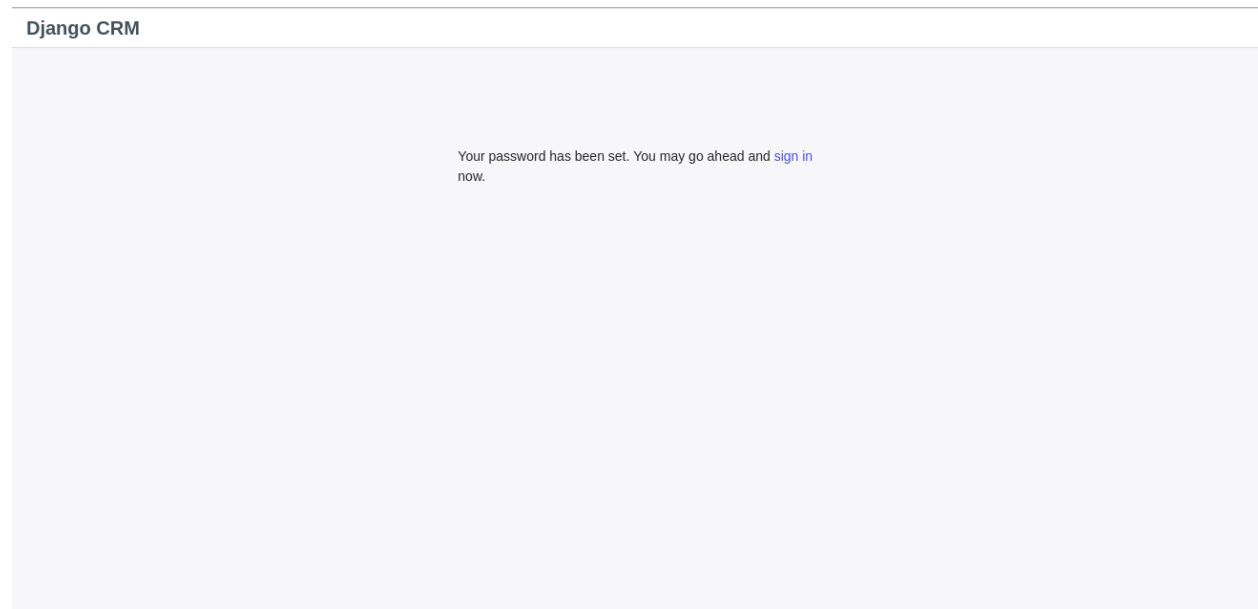

Fig Password Reset Successful view

Now click on login and enter your credentials

After successful login you will be redirected to Dashboard which looks similiar to the below figure

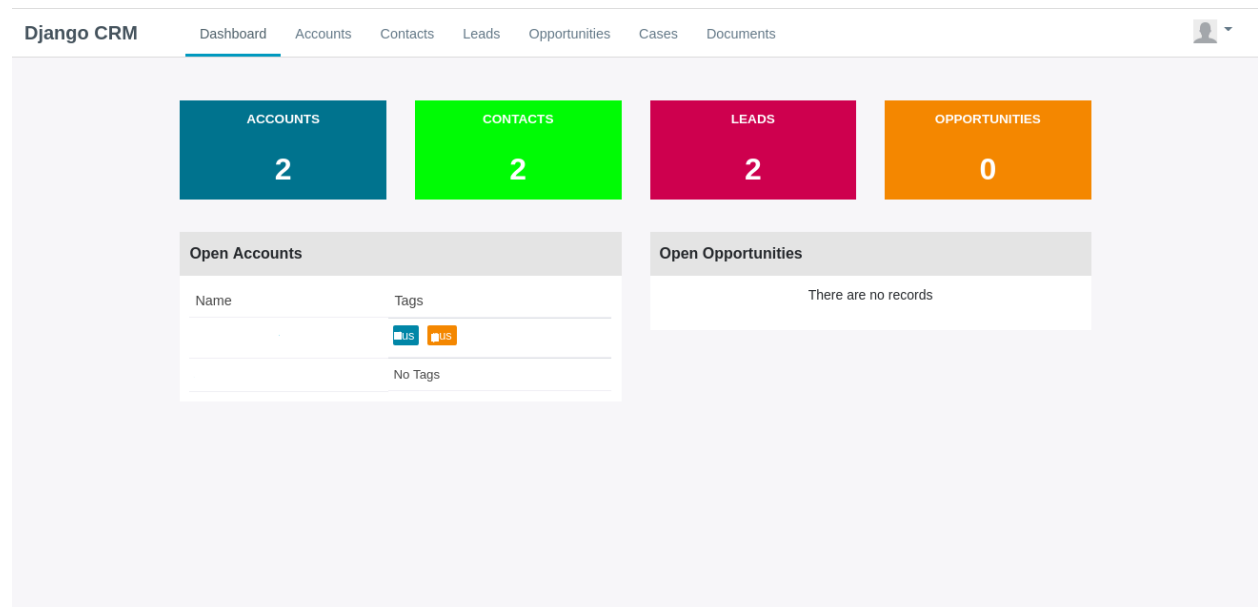

Fig Dashboard view

The home page/Dashboard have access to all the modules of the CRM

Note: The numbers below accounts, contacts, leads, opportunities represent the total count of each module.

3.1.3 Profile

Dropdown menu for user settings

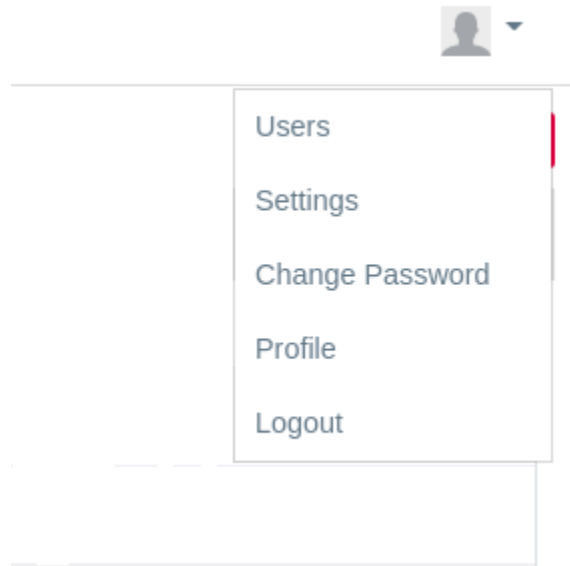

Fig Dropdown menu

Here in this drop down all the essential options for the user profile management are available i.e.

Users

On clicking users, the following page is shown

Here the user can activate/deactivate, edit/delete user data.

One clicking “ + Add New User“ the following page is shown:

Settings

On clicking settings, the following page is shown:

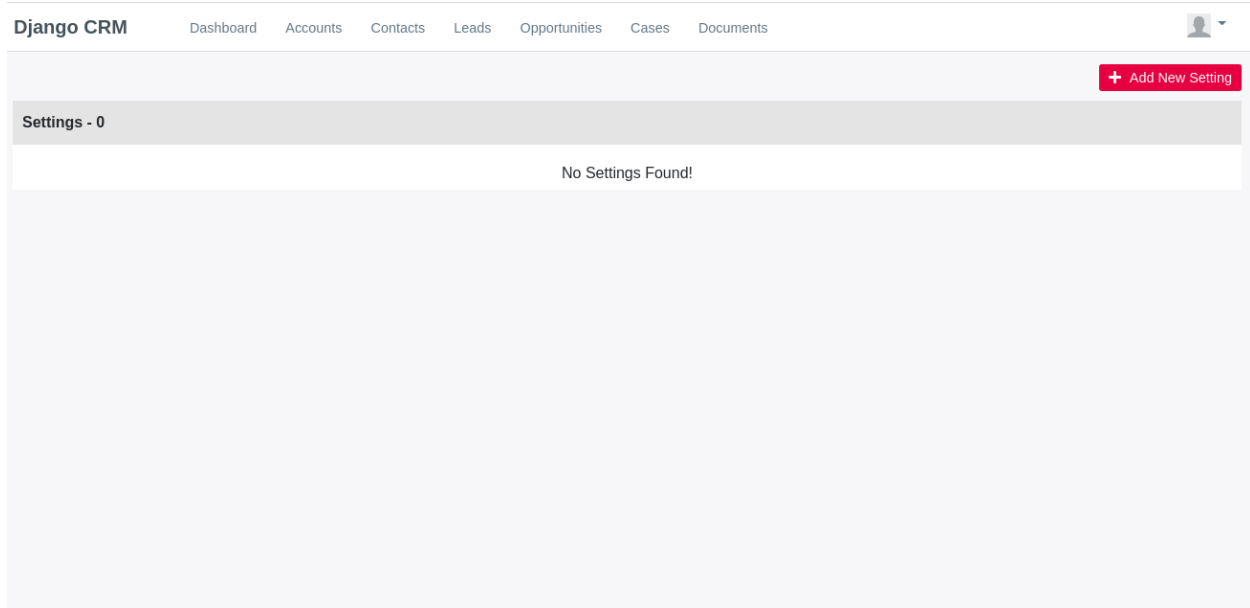

Fig: User Settings page

Click on “+ Add New Setting”

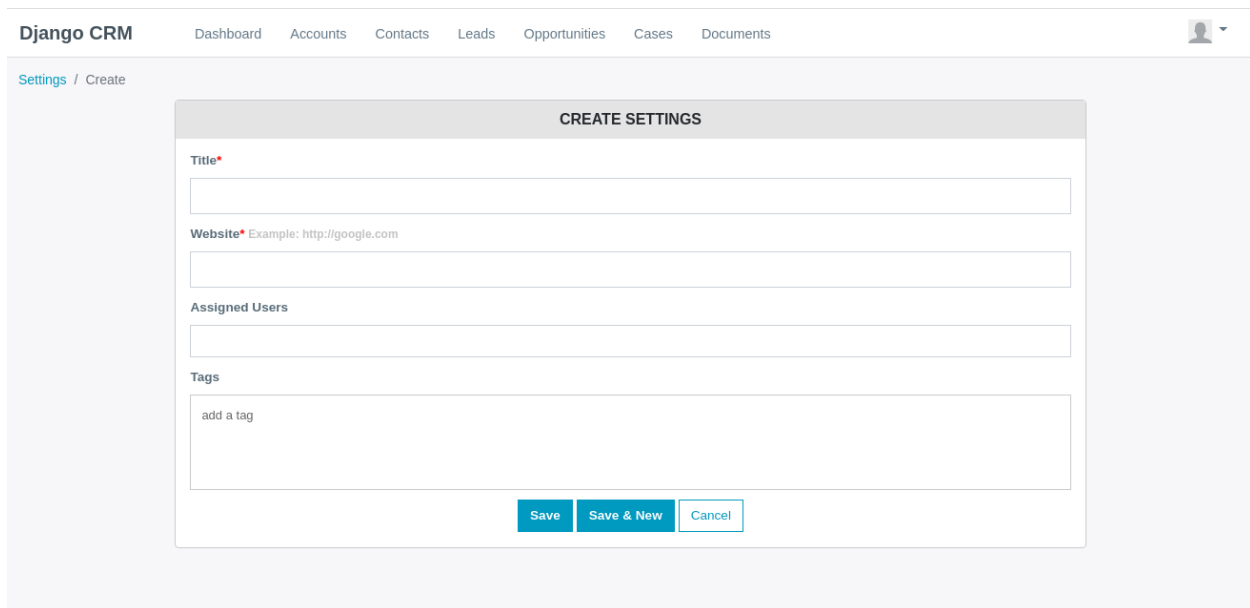

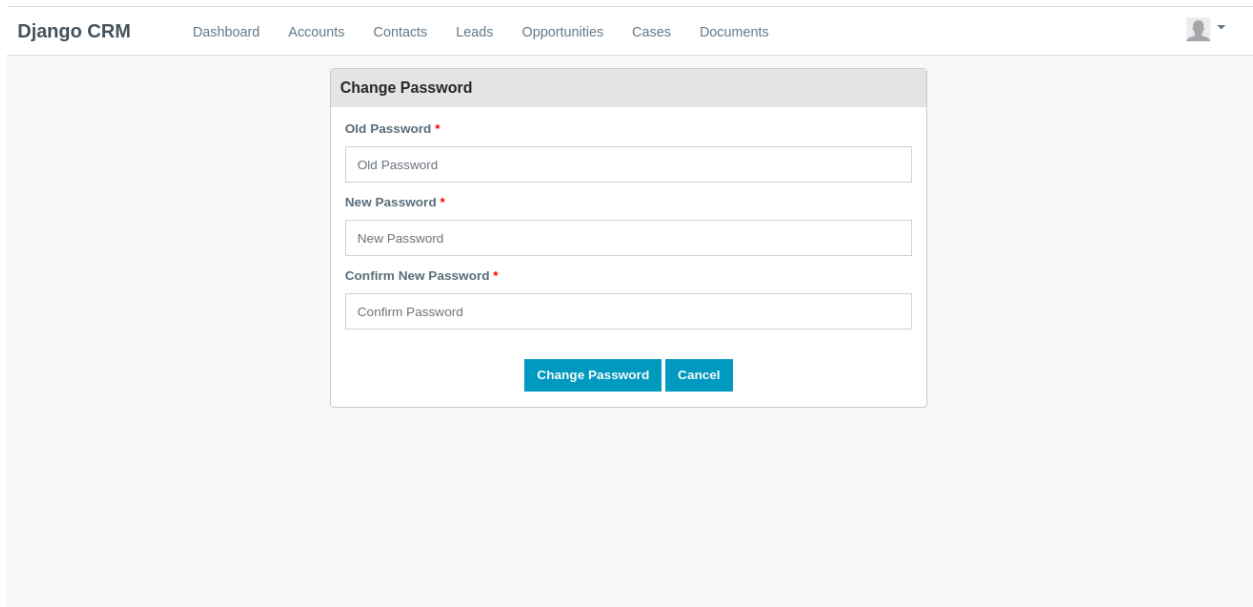

Fig: User Create Setting page

Change Password

On clicking settings, the following page is shown:

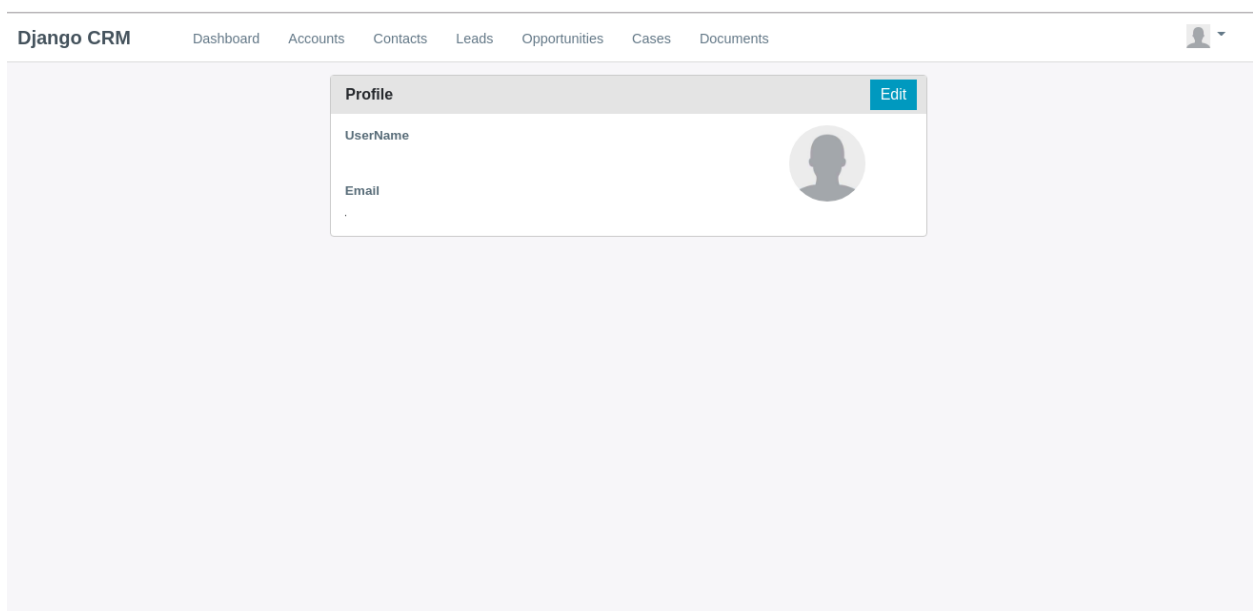

The screenshot shows the Django CRM interface with a navigation bar at the top containing 'Django CRM', 'Dashboard', 'Accounts', 'Contacts', 'Leads', 'Opportunities', 'Cases', and 'Documents'. A user profile icon is in the top right. The main content area features a 'Change Password' modal form. The form has three input fields: 'Old Password', 'New Password', and 'Confirm New Password', each with a red asterisk indicating a required field. Below the fields are two buttons: 'Change Password' (in blue) and 'Cancel' (in grey).

Fig: User Change password page

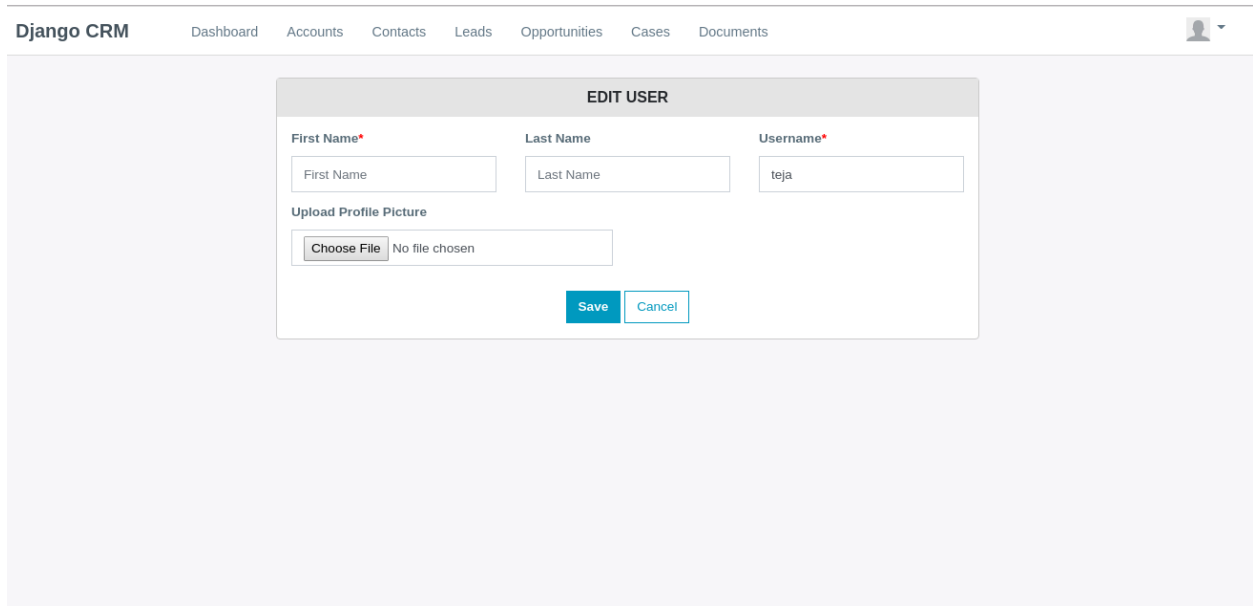

Profile

On clicking settings, the following page is shown:

The screenshot shows the Django CRM interface with the same navigation bar. The main content area features a 'Profile' modal form. The form has two input fields: 'UserName' and 'Email'. To the right of the 'Email' field is a circular profile picture placeholder. In the top right corner of the modal, there is an 'Edit' button in blue.

Fig: User profile page

The screenshot shows the 'EDIT USER' form in the Django CRM application. The form is titled 'EDIT USER' and contains three input fields for 'First Name*', 'Last Name', and 'Username*'. The 'Username*' field contains the value 'teja'. Below these fields is a section for 'Upload Profile Picture' with a 'Choose File' button and the text 'No file chosen'. At the bottom of the form are 'Save' and 'Cancel' buttons. The background of the page shows a navigation bar with links to Dashboard, Accounts, Contacts, Leads, Opportunities, Cases, and Documents, and a user profile icon in the top right corner.

Fig: User edit profile page

Here user can edit his personal details.

Logout

On Clicking logout you will be logged out from the account and redirected to Login page.

3.1.4 Change Password

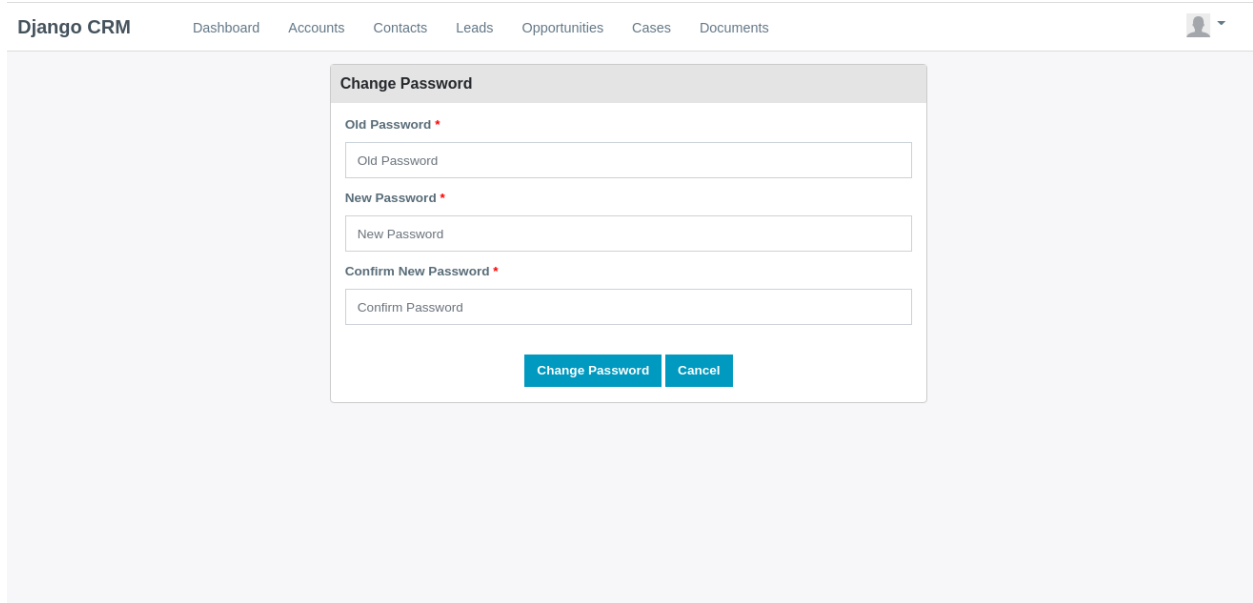

The screenshot shows the Django CRM web interface. At the top, there is a navigation bar with the logo 'Django CRM' and several menu items: 'Dashboard', 'Accounts', 'Contacts', 'Leads', 'Opportunities', 'Cases', and 'Documents'. On the far right of the navigation bar is a user profile icon. The main content area is a light gray rectangle. In the center of this area is a white modal box titled 'Change Password'. Inside the modal box, there are three text input fields. The first is labeled 'Old Password *' with a red asterisk. The second is labeled 'New Password *' with a red asterisk. The third is labeled 'Confirm New Password *' with a red asterisk. Below these fields are two buttons: a blue 'Change Password' button and a gray 'Cancel' button.

Fig Password Change Page

The above figure shows the password change view, here enter the old password in “old password field” and enter new password in “new password field” and retype the new password in “confirm new password” field.

Click “Change Password” button to change the password successfully, otherwise cancel to cancel the process.

3.2 Modules in crm:

3.2.1 Accounts

These have the user roles i.e Admin and User. User Role will have permissions where Admin can access.

Create your Accounts - new account can be created for different users and contacts and leads can create in accounts itself in their view pages

Fig cases Home Page

The above figure shows the cases view, this page gives details and list view of leads
You can filter the results by name, status, priority, account.

Create a new Lead using the button on right corner + Add New case

The screenshot displays the 'CREATE CASE' form within the Django CRM application. The top navigation bar includes 'Dashboard', 'Accounts', 'Contacts', 'Leads', 'Opportunities', 'Cases' (highlighted), and 'Documents'. A user profile icon is visible on the right. Below the navigation bar, the breadcrumb 'Cases / Create' is shown. The form itself is titled 'CREATE CASE' and contains several fields: 'Name*' (text input), 'Close Date*' (text input with 'Closed on' placeholder), 'Contacts' (text input), 'Status*' (dropdown menu), 'Assigned Users' (text input), 'Description' (text area), 'Priority*' (dropdown menu), 'Account' (dropdown menu), and 'Type of Case' (dropdown menu). An 'Attachment' section includes a 'Choose File' button and the text 'No file chosen'. At the bottom of the form are three buttons: 'Save', 'Save & New', and 'Cancel'.

Fig cases Create Page

Note: Fields having * are mandatory.

Note: To create a cases user, accounts are required.

3.2.6 Documents

The screenshot shows the 'Documents' page in Django CRM. At the top, there's a navigation bar with 'Django CRM' and links to 'Dashboard', 'Accounts', 'Contacts', 'Leads', 'Opportunities', 'Cases', and 'Documents'. A user profile icon is on the right. Below the navigation bar, there's a red button '+ Add New Document'. A 'Filters' section contains three input fields: 'Title' (with 'Document Title' entered), 'Status' (with '--Status--' selected), and 'Shared To'. There are 'Search' and 'Clear' buttons. Below the filters, a table titled 'Documents - 1' shows a single document with the following details:

S.No	Title	Created By	Created On	Status	Shared To	Actions
1			March 13, 2019, 2:39 p.m.	active		

Fig documents Home Page

The above figure shows the documents view, this page gives details and list view of leads. You can filter the results by title, status, shared to.

Create a new Document using the button on right corner + Add New Document

The screenshot shows the 'Documents / Create' page in Django CRM. A modal form titled 'CREATE DOCUMENT' is displayed. It contains the following fields:

- Title ***: A text input field with 'Document title' entered.
- Upload Document ***: A file upload area with a 'Choose File' button and the text 'No file chosen'.
- Share To**: A text input field.

At the bottom of the form are 'Save' and 'Cancel' buttons.

Fig Documents Create Page

Note: Fields having * are mandatory.

CHAPTER 4

Rules to follow:-

1. writing test cases for the code
2. test cases coverage percent should be above 90%

Setup On Local System

5.1 On Windows

5.2 On Ubuntu

First Create a Virtual Environment in a local directory.

Install Pip to install python packages.

Then clone the source code from the repository [click here](#).

Activate Virtual environment, then install the requirements.txt using the command

```
pip install -r requirements.txt
```

Then execute

```
python manage.py runserver
```

Now Go to browser, enter the url `http://127.0.0.1:8000`

Installation - Requirements

6.1 Ubuntu 64bit - 16.04

```
$ sudo apt-get update && apt-get upgrade -y
$ sudo apt-get install -y curl wget libpq-dev python3-dev gem ruby ruby-dev build-essential libssl-dev libffi-dev
python-dev python-virtualenv python-pip git redis-server libtiff5-dev libjpeg8-dev zlib1g-dev libfreetype6-dev
liblcms2-dev libwebp-dev libharfbuzz-dev libfribidi-dev tcl8.6-dev tk8.6-dev python-tk
$ sudo gem install sass
```
